

Dear **Aspiring Doctors**,

We (Admission Advisor) have been education consultancy with specialization in MBBS for the last 24 years.

We are the only education consultants in the world who has been in touch with the PMO, the MEA, the MoHFW & the NMC to collect the proper as well as correct information & interpretation of the various sections of the Gazette Notifications on medical education in India and abroad were issued from 18.11.2021 onwards.

We are the only education consultants in the world who were guiding force in India for 20,000 Ukraine returned Indian medical students in distress for the settlement to obtain permission from the National Medical Commission to allow transfer to other safer countries to complete their remaining medical education.

We request you the students to be extra careful while taking admission for MBBS or equivalent course in country abroad. Aspiring doctors have to be equally careful seeking admission for MBBS in India or Abroad.

- Medical education is completely different after 18.11.2021, be it in India or abroad, you have to be 100% sure and confident about your decision.
- MBBS is not only about qualifying NEET and seeking admission but it needs your 100% determination & dedication towards your studies.
- While studying MBBS in India or abroad, you need to study 24x7 for the entire duration of the course and perform the practicals with perfection as well.

SUMMARY OF NMC GUIDELINES FOR FOREIGN MEDICAL GRADUATE POST 18 NOV 2021

This summary outlines the essential criteria and process for Indian students aiming to practice medicine in India after obtaining a medical degree from abroad.

Indian students seeking to pursue MBBS in foreign countries need to be aware of the National Medical Commission (Foreign Medical Graduate Licentiate) Regulations, 2021. Here are the key points:

Regulations Overview: These regulations govern the qualifications and procedures for foreign medical graduates to practice medicine in India.

- **Course Duration:** Must complete a medical course of at least 54 months.
- **Internship:** Must undergo a 12-month internship at the same foreign institution.
- **Language:** The degree must be obtained with English as the medium of instruction.
- **Subjects:** Must study mandatory subjects as specified in Schedule-I of NMC Act.
- **A 12-month internship:** FMG must undergo a 12-month supervised internship in the same university hospital.
- **Professional Registration:** after completion of Internship the foreign medical graduates must be registered with the relevant professional regulatory body in the country where the degree is awarded.
- **Foreign Medical Graduate Examination (FMGE):** After completion of Degree from abroad the foreign medical graduates needs to Qualify FMGE in India.
- **Internship in India:** FMGE must complete a 12-month supervised internship in India.
- **Registration:** the foreign medical graduates after completion of all above are granted License to practice as medical practitioner (a doctor) in India.

National Exit Test (NExT):

After National Exit Test (NExT) is implemented, Foreign Medical Graduate Examination (FMGE) will be non-existent. (Implementation of Previous Gazette Notification deferred)

After the implementation of National Exit Test (NExT), all the medical graduates whether study MBBS or MBBS equivalent course in India or abroad, will have to qualify as under:

1. Qualify NExT-1: Graduates After completion of Degree from abroad will be required to qualify the National Exit Test Part 1 (NExT-1). NExT-1 will be score for admission in Post Graduate Degree course after qualifying NExT-2.

2. A 12-month internship in India: Internship in India have to be done in NMC-designated hospitals by all the students whether studying Medicine in India or abroad.

3. Qualify NExT-2: NExT-2 will ensure your license to practice as a medical practitioner in India and only after qualifying NExT-2 you can use your NExT-1 score for admission to a Post Graduate Degree programme in India.

Exemptions:

- ✓ These regulations do not apply to those who acquired their foreign medical degrees before the regulations came into force or are already pursuing their education abroad.
- ✓ Specific exemptions may be granted by the Commission or Central Government.

Course Criteria:

- ✓ The foreign medical course must be equivalent to the Indian MBBS curriculum.
- ✓ The entire course, including internship, must be completed at the same foreign institution.

Completion Time: The foreign medical course must be completed within ten years from the date of seeking admission. After the implementation of National Exit Test (NExT), you may be required to clear everything within 10 years of joining the MBBS course in India or Abroad.

You have to be extremely careful while you are taking admission in MBBS either in India or Abroad.
