Greetings of the day,
Dear koul ravi kumar,

The answers of your questions are as follows:

1. The duration of MD is 7 years.
2. For foreigners it goes to 8 years because first they have to learn Persian language, 6 months to 1 year.
3. For MD, Language of teaching is English in most of the universities. Since in medical courses students have to interact with the patients they have to learn Persian first.

Regarding the rest, the Government of India has recently devised new requirements on license to practice that we are not aware of. However its worth mentioning that the majority of the other countries usually don't give licenses for practice in their own country.

Thanks

Subject: Clarification for Medical Students who study medicine (**Doctor of Medicine - M.D**) in the Islamic Republic of Iran.

Dear Sir,

I will be thankful to you for the answers to the following questions for the information and guidance of aspiring Indian Medical Students those are looking for an option to study medicine (Doctor of Medicine - M.D) in **the Islamic Republic of Iran**.

1. What is the duration of Doctor of Medicine - M.D in the Islamic Republic of Iran for local students?
2. What is the duration of Doctor of Medicine - M.D in the Islamic Republic of Iran for foreign students?
3. What is the Language of instruction for Doctor of Medicine - M.D in the Islamic Republic of Iran (English or other language)?
4. What is the provision & Duration of Internship in the Islamic Republic of Iran?
5. Can an Indian student obtain a license to practice as a medical practitioner in the Islamic Republic of Iran and is this at par with the license to practice granted to local citizens in the Islamic Republic of Iran after completion of Doctor of Medicine - M.D programme?
6. What is the complete Process of Registration for license to practice as a medical practitioner in the Islamic Republic of Iran?
7. Do the Islamic Republic of Iran have any licensing exam to obtain a license to practice as a medical practitioner, if Yes, in which language?

I look forward to your support.

Sincerely Yours,

Ravi Kumar Koul

(Corner of 9th alley),

Dr. Beheshti Avenue,

Tehran, Postal Code: 1587736613.

Subject: Clarification for Indian Medical Students those study medicine in **Iran**.

Dear Sir

The National Medical Commission has issued a **Gazette Notification on the 18th of Nov. 2021 – the Foreign Medical Graduate Licentiate Regulations, 2021** (copy attached).

Because of the above lot of questions have come up about Foreign Medical Education & we are not able to decide about the future of our kids in the absence of facts about Medical Education Abroad.

We have only one source to get answers to various questions on Medical Education in India and that is **National Medical Commission**, the regulator of medical education in India.

Since the information required by me is about **Foreign Medical Education** in a country abroad and for that only authentic source to get proper information of the questions is only & only the Indian Embassy in that country

Sir, every year a large number of Indian students join Medical Education in **Iran** and it is really difficult for a student or his or her parents to know about the facts of Medical Education on foreign soil before actually joining the institution in that country; it is really difficult for both the student and his or her parents.

You as the representative of our country on that foreign soil are our trust and guardian of Indian citizens there; you can become a guiding force for these students with every possible proper authentic information and save them from getting trapped by false information from the Medical Education Consultants here in India.

Sir, look forward to answering the following seven questions from your good self.

- 1. Question - What is the duration of a Medical Doctor Degree or MBBS in Iran for local students?**
- 2. Question - What is the duration of a Medical Doctor Degree or MBBS in Iran for foreign students?**
- 3. Question - What is the Language of instruction for a Medical Doctor Degree or MBBS in Iran (English or other language)?**

4. Question - What is the provision & Duration of Internship?

5. One of the major points of the FMGL Regulations 2021, is that Indian students need to be: "4 (b) registered with the respective professional regulatory body or otherwise, competent to grant license to practice medicine in their respective jurisdiction of the country in which the medical degree is awarded and at par with the license to practice medicine given to citizen of that country".

This means that an Indian Student who studies medicine in **Iran** and then wishes to register in India; first needs to Register with the **Iran** Medical Licensing Regulatory Body & that Registration must be at Par with the Registration given to a citizen of **Iran**.

Question 5 - Can an Indian student obtain a license to practice in Iran and is this at par with the Registration granted to local citizens in Iran?**6. Question - What is the complete Process of Registration in Iran?****7. Question - Do they have any licensing exam in Iran and if Yes, in which language?**

I look forward to your support.

Sincerely Yours,

Ravi Kumar Koul

Dear Sir,

Thank you for your reply.

Here I will like to draw your attention that we are Indians and will like to obtain the answer of my questions from our own country offices; that is more authentic for me.

I can not have access to the Embassy of Iran and also why shall they guide me?

National Medical Commission will only have answer to my questions incase our country representative in Iran collects & forwards the details to them.

Sir, you are our guardian in foreign land & the answer to my questions can only be replied by The Health Ministry of Iran, I can not write to them; so kindly request you to please

write to them and get answer to these questions, so that I can get proper guidance through you.

I look forward to your support.

Sincerely Yours,

Ravi Kumar Koul
