02.05.2023

Sub: - Advisory for Indian students planning of studying medicine in Kyrgyzstan

Ref: Following sent to Embassy of India, Bishkek, Chancery: 100-A, Mahatma Gandhi Street, Bishkek - 720010 Kyrgyzstan

- ❖ My emails dated **Sep 1, 2022, Sep 14, 2022 & 05 October 2022** (Copy attached)
- ❖ RTI application No. MEABS/R/E/22/00008 dated 01.06.2022 (Copy attached)
- ❖ RTI first appeal registration No. MEABS/A/E/22/00005 dated 07/06/2022 (Copy attached)

Respected Sir,

I am writing to you about my previous emails and RTI applications sent to the Embassy of India, Bishkek, which have not received any response yet. I wanted to get information about medical education in Kyrgyzstan for Indian students from our embassy, as they are responsible for providing such guidance.

I believe that we cannot solely rely on foreign universities or institutions for accurate information about medical education, especially when the students' future is at stake. It is crucial to receive an official advisory from our embassy.

I had asked the Embassy of India, Bishkek the following seven questions, which could serve as an advisory for Indian students planning to study medicine in Kyrgyzstan:

1. What is the duration of a Medical Doctor Degree or MBBS in Kyrgyzstan for local students?
2. What is the duration of a Medical Doctor Degree or MBBS in Kyrgyzstan for foreign students?
3. What is the language of instruction for a Medical Doctor Degree or MBBS in Kyrgyzstan (English or another language)?
4. What are the provisions and duration of internships?
5. Can an Indian student obtain a license to practice in Kyrgyzstan, and is it equivalent to the registration granted to local citizens?
6. What is the complete process of registration granted to local citizens in Kyrgyzstan to practice as a medical doctor?
7. Are there any licensing exams in Kyrgyzstan, and if yes, in which language?

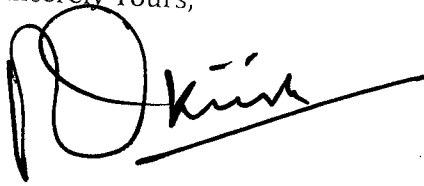

P/35/MEA
Q

Each country has rules and regulations regarding medical education and licensing for medical practice for their local students. I believe that the Embassy of India, Bishkek can access this information officially, while I, as a common person, cannot.

Students are going to Kyrgyzstan in bulk even after FMGL 2021 in the Absence of clarity on the rules and regulations of medical education there and the students can face problems here in India after the completion of course.

Let us educate the students before joining Medical Doctor Course Abroad; so I kindly request your assistance in obtaining answers to these questions from the Embassy of India, Bishkek. It would be helpful if the information could be posted as an advisory on the official website of the Embassy.

Sincerely Yours,

Ravi Kumar Koul

- ❖ My emails dated **Sep 1, 2022, Sep 14, 2022 & 05 October 2022**
- ❖ RTI application no MEABS/R/E/22/00008 dated 01.06.2022
- ❖ RTI first appeal registration No. MEABS/A/E/22/00005 dated 07/06/2022

Subject: **Reminder No. 4 for Clarification on Indian Medical students those planning of studying medicine in Kyrgyzstan**

Dear Sir/ Madam,

- ❖ It has been such a long time that you did not respond to my queries raised through above mentioned letters dated **Sep 1, 2022, Sep 14, 2022 & 05 October 2022** till date.
- ❖ To RTI application no MEABS/R/E/22/00008 dated 01.06.2022 reply read as: - **The applicant is advised to seek the relevant information from the concerned Universities/ Colleges in Kyrgyzstan directly.**
- ❖ To RTI first appeal registration No. MEABS/A/E/22/00005 dated 07/06/2022 reply read as: - **the applicant may seek information related to medical courses/degree etc. directly from the concerned universities/institutions in the Kyrgyz Republic.**

Questions came up after "The National Medical Commission Gazette Notification on the 18th of Nov. 2021 - **the Foreign Medical Graduate Licentiate Regulations, 2021 (FMGL 2021)**" about the validity of Foreign Medical Doctor Degree in India.

Respected Sir/ Madam, you being in our country's highest office in Kyrgyzstan and have huge responsibilities towards the country; **every word from your office (Indian Embassy) counts as an official word from our own government.**

Children who could not get admission or afford the same in any medical college in India; have a second choice to go for medical education abroad; **more because Medical Education Consultants are using every method of marketing to attract** the aspiring Indian medical students to countries where they can make more money.

Medical Education Consultants in India are attracting the students with their interpretation of various clauses of this NMC - FMGL 2021 that suits their business.

This is going to be a disaster if things are not clarified now.

These Indian students will complete their medical education in next 6 to 7 years or so and after they come back with the degree; the National Medical Commission can deny

them right to practice medicine in India due to many countries may not be following the **Gazette Notification FMGL 2021** in its correct interpretation as is drafted by the National Medical Commission.

How to avoid this damage or loss?

Better guide these Indian students with the official interpretation of the Foreign Medical Graduate Licentiate Regulations, 2021 (FMGL 2021) **and save their future & parents hard earned money?**

Indian Embassy abroad is the only source to get proper & correct information for Indian students and parents from Abroad.

Respected Sir/ Madam, I kindly request you to seek desired official responses for below mentioned questions from concerned Government **department / departments / the authorities** there in Kyrgyzstan; that will prevent Indian students from being misled.

Sir, I look forward to answering the following seven questions from your good self without any further delay.

1. **What is the duration of a Medical Doctor Degree or MBBS in Kyrgyzstan for local students?**
2. **What is the duration of a Medical Doctor Degree or MBBS in Kyrgyzstan for foreign students?**
3. **What is the Language of instruction for a Medical Doctor Degree or MBBS in Kyrgyzstan (English or other language)?**
4. **What is the provision & Duration of Internship?**
5. **Can an Indian student obtain a license to practice in Kyrgyzstan and is this at par with the Registration granted to local citizens in Kyrgyzstan?**
6. **What is the complete Process of Registration granted to local citizens in Kyrgyzstan to practice as medical doctor?**
7. **Do they have any licensing exam in Kyrgyzstan and if Yes, in which language?**

With all my humility I once again request you to help, support and guide the young Indian students of our country towards a bright future.

Sincerely Yours,

Ravi Kumar Koul

Subject: **Reminder** for Clarification on Indian Medical students those planning of studying medicine in **Kyrgyzstan**

Dear Sir/ Madam,

It has been such a long time that you did not respond to my queries till date.

Questions came up after "The National Medical Commission Gazette Notification on the 18th of Nov. 2021 - **the Foreign Medical Graduate Licentiate Regulations, 2021 (FMGL 2021)**" about the validity of Foreign Medical Doctor Degree in India.

Respected Sir/ Madam, you being in our country's highest office in foreign land and have huge responsibilities towards the country; **every word from your office (Indian Embassy) counts as an official word from our own government.**

Children who can not get admission or afford the same in any medical college in India; do have a second choice to go for medical education abroad; more because Medical Education Consultants are using every method of marketing to attract the aspiring Indian medical students to countries where they can make more and more money.

Medical Education Consultants in India are attracting the students with their interpretation of various clauses of this NMC - FMGL 2021 that suits their business.

What is going to be the huge damage, in fact a disaster?

As we all know that a large number of Students are joining various countries for Medical Education these days believing the interpretation as is given by the Medical Education Consultants.

These Indian students will complete their medical education in next 6 to 7 years or so and after they come back with the degree; the National Medical Commission can deny them right to practice medicine in India due to many countries may not be

④

following the **Gazette Notification FMGL 2021** in its correct interpretation as is drafted by the National Medical Commission.

How to avoid this damage or loss?

So why not guide these Indian students with the official interpretation of the Foreign Medical Graduate Licentiate Regulations, 2021 (FMGL 2021) **and save their future?**

Indian Embassy abroad is the only source to get proper & correct information for Indian students and parents.

Respected Sir/ Madam, I kindly request you to seek desired official responses for my questions from concerned Government **department / departments / the authorities** there; that will prevent Indian students from being misled in India.

With all my humility I once again request you to help, support and guide the young Indian students of our country towards a bright future.

I look forward to your kind reply.

Ref.: My email dated **Sep 1, 2022** is unanswered till date.

Subject: **Reminder** for Clarification on Foreign Medical Students studying medicine in **Kyrgyzstan.**

Dear Sir

Here I would like to draw your attention that we are Indians and would like to obtain the answer of my questions from our own country offices; that is more authentic for us.

I can not have direct access to the **Embassy of foreign country** for such answers and **questions arise will they guide me honestly?**

The National Medical Commission of India will answer my questions only in case our country representatives in foreign countries collect the details from relevant department or departments in any foreign country & forward the details to the National Medical Commission.

Respected Sir, you are the guardian of all Indians who visit to **Kyrgyzstan** for whatever purpose. Students who want to seek medical education, need your support, guidance and blessings at this point of time else they will get misled by unscrupulous elements in our society called **Medical Education Consultants** there by losing their money, time & future.

Sir, you are our guardian in the foreign land & I request you to seek desired official responses from concerned **department / departments / the concerned authorities of Kyrgyzstan.**

Our students are the future of our country and a proactive response will assist us in taking an informed decision; thereby preventing themselves from being misled in their careers.

Respected Sir, I will like to draw your attention to the fact that this issue is equally raised by prominent media houses of the country on -

"How silent NMC and clueless Indian Embassies are putting careers of thousands of foreign medical aspirants at risk".

<https://www.outlookindia.com/business/silent-nmc-clueless-indian-embassies-put-careers-of-thousands-of-foreign-medical-aspirants-at-risk-news-222977>

With all my humility I may urge your highness to please get the clarity on all the questions at the earliest, enlightening the young students of our country towards a bright future.

I look forward to your kind reply.

Sincerely Yours,

Ravi Kumar Koul

Subject: Clarification on Registration for a Foreign Medical Students who study medicine in **Kyrgyzstan**

Dear Sir

The National Medical Commission has issued a **Gazette Notification on the 18th of Nov. 2021 – the Foreign Medical Graduate Licentiate Regulations, 2021** (copy attached).

Because of the above lot of questions have come up about Foreign Medical Education & we are not able to decide about the future of our kids in the absence of facts about Medical Education Abroad.

We have only one source to get answers to various questions on Medical Education in India and that is **National Medical Commission**, the regulator of medical education in India.

Since the information required by me is about **Foreign Medical Education** in a country abroad and for that only authentic source to get proper information of the questions is only & only the Indian Embassy in that country

Sir, every year a large number of Indian students join Medical Education in **Kyrgyzstan** and it is really difficult for a student or his or her parents to know about the facts of Medical Education on foreign soil before actually joining the institution in that country; it is really difficult for both the student and his or her parents.

You as the representative of our country on that foreign soil are our trust and guardian of Indian citizens there; you can become a guiding force for these students with every possible proper authentic information and save them from getting trapped by false information from the Medical Education Consultants here in India.

Sir, look forward to answering the following seven questions from your good self.

1. **What is the duration of a Medical Doctor Degree or MBBS in Kyrgyzstan for local students?**
2. **What is the duration of a Medical Doctor Degree or MBBS in Kyrgyzstan for foreign students?**
3. **What is the Language of instruction for a Medical Doctor Degree or MBBS in Kyrgyzstan (English or other language)?**

4. What is the provision & Duration of Internship?

5. One of the major points of the FMGL Regulations 2021, is that Indian students need to be: "4 (b) registered with the respective professional regulatory body or otherwise, competent to grant license to practice medicine in their respective jurisdiction of the country in which the medical degree is awarded and at par with the license to practice medicine given to citizen of that country".

This means that an Indian Student who studies medicine in **Kyrgyzstan** and then wishes to register in India; first needs to Register with the **Kyrgyzstan** Medical Licensing Regulatory Body & that Registration must be at Par with the Registration given to a citizen of **Kyrgyzstan**.

Can an Indian student obtain a license to practice in Kyrgyzstan and is this at par with the Registration granted to local citizens in Kyrgyzstan?

6. What is the complete Process of Registration in Kyrgyzstan?

7. Do they have any licensing exam in Kyrgyzstan and if Yes, in which language?

I look forward to your support.

Sincerely Yours,
Ravi Kumar Koul

Sub: - Advisory for Indian students planning of studying medicine in Kyrgyzstan
Ref: PMO Grievance registration number: PMOPG/D/2023/0093572

Respected Sir,

Question may arise why a Grievance was raised by me through PMO?

As is mentioned in my previous letter number: PMOPG/D/2023/0093572 dated 02.05.2023 (copy attached); earlier I had sent a number of emails and RTI applications addressed directly to the Embassy of India, Bishkek dated Sep 1, 2022; Sep 14, 2022 & 05 October 2022 followed by RTI applications No. MEABS/R/E/22/00008 dated 01.06.2022; No. MEABS/A/E/22/00005 dated 07/06/2022 but never got a proper reply from the Embassy of India, Bishkek so finally decided to send a letter through PMO vide Grievance registration number: PMOPG/D/2023/0093572 however one RTI the Embassy of India in Bishkek replied that reads - ***The applicant is advised to seek the relevant information from the concerned Universities/ Colleges in Kyrgyzstan directly.***

Similar reply is received for PMO Grievance registration number: PMOPG/D/2023/0093572 from Shri Devesh Uttam, Joint Secretary, CPV Division Ministry of External Affairs for PMOPG/D/2023/0093572 that reads:-

We have raised the issue with concerned authority. In reply, it is stated that the information is not available with this Embassy. The applicant is being informed that as per the extant instructions, the Embassy is not required to gather information from various sources and create information and provide it to applicant. The applicant is further advised to seek the relevant information from the Universities Colleges in Kyrgyzstan directly.

I believe that the reply from the Embassy of India, Bishkek advising to seek the relevant information from the Universities Colleges in Kyrgyzstan directly is not going to be a good decision and in favour of Indian students and India.

Respected Sir, we cannot rely on foreign universities or institutions for accurate information about medical education, especially when the students' future is at stake. It is important to receive an official advisory from our embassy instead.

I believe the Embassy of a country is definitely required to gather such information from various sources and create information and provide it to any Indian Citizen as the Embassy is supposed to take care of all interests concerning India and Indian citizen like various other embassies of India have issued similar details in the shape of advisory on embassy websites to educate the aspiring Indian Students planning to study in a country where only Indian embassy can be source of authentic information; thereby saving the Indian students from being misled through wrong information given by the individuals or institutions for their financial gains.

Respected Sir, the National Medical Commission issued a Gazette Notification; the Foreign Medical Graduate Licentiate Regulations, 2021 (FMGL 2021) on the 18th of Nov. 2021 that is going to affect the students studying medicine abroad and their future thereby our country.

We need to tell the students if the medical education in a particular country is satisfying the norms formulated by the National Medical Commission or not; else it will be a disaster.

Respected Sir, since September 2022, I have been requesting the Embassy of India, Bishkek for the answer to following seven questions, which will serve as an advisory for Aspiring Indian students planning to study medicine in Kyrgyzstan; and answer to these questions like many our Indian Missions abroad did, can be put on the embassy website for the information of aspiring students:

1. What is the duration of a Medical Doctor Degree or MBBS in Kyrgyzstan for local students?
2. What is the duration of a Medical Doctor Degree or MBBS in Kyrgyzstan for foreign students?
3. What is the language of instruction for a Medical Doctor Degree or MBBS in Kyrgyzstan (English or another language)?
4. What are the provisions and duration of internships?
5. Can an Indian student obtain a license to practice in Kyrgyzstan, and is it equivalent to the registration granted to local citizens?
6. What is the complete process of registration granted to local citizens in Kyrgyzstan to practice as a medical doctor?
7. Are there any licensing exams in Kyrgyzstan, and if yes, in which language?

Respected Sir, students are seeking admission abroad in various countries without knowing the facts, as the same are not available and after completion of the degree when a student will approach the National Medical Commission for licensing in India, he or she may face rejection of that degree. In that case an Indian student, now a doctor, will lose 5 to 7 crucial years of his/her career and their parents hard earned money.

The students are going to be big Losers (losing the precious time of their career) and their parent's money (huge funds) but above all the **Huge Forex of our country**.

Looking at the Gazette Notification and other rules & regulations governing medical education in India and Abroad if the Indian Embassy does not educate the aspiring doctors today and the National Medical Commission rejects the degree or degrees of the students on return, like first batch under FMGL2021 is expected to return in 2027 calculating at 15000 students / year there will be an expected loss of approximately 1,890,000,000 USD of FOREX to the India between 2021 to 2027.

CALCULATIONS OF THE MINIMUM EXPECTED FOREX LOSS TO INDIA FROM 2021 TO 2027 IF WE DO NOT EDUCATE STUDENTS TODAY

Calculation of Students batch 2021 to 2027 (for 6 years)		
No of students joining MBBS abroad per batch	15,000 every year	
Average expenses per year per student	6,000	USD
Expenses for 15000 students in 1 year	90000000	USD
Total Spent by 2021 batch till 2027	540000000	USD
Calculation of Students batch 2022 to 2027 (for 5 years)		
No of students joining MBBS abroad per batch	15,000 every year	
Average expenses per year per student	6,000	USD
Expenses for 15000 students in 1 year	90000000	USD
Total Spent by 2022 batch till 2027	450000000	USD
Calculation of Students batch 2023 to 2027 (for 4 years)		
No of students joining MBBS abroad per batch	15,000 every year	
Average expenses per year per student	6,000	USD
Expenses for 15000 students in 1 year	90000000	USD
Total Spent by 2023 batch till 2027	360000000	USD
Calculation of Students batch 2024 to 2027 (for 3 years)		
No of students joining MBBS abroad per batch	15,000 every year	
Average expenses per year per student	6,000	USD
Expenses for 15000 students in 1 year	90000000	USD
Total Spent by 2024 batch till 2027	270000000	USD
Calculation of Students batch 2025 to 2027 (for 2 years)		
No of students joining MBBS abroad per batch	15,000 every year	
Average expenses per year per student	6,000	USD
Expenses for 15000 students in 1 year	90000000	USD
Total Spent by 2025 batch till 2027	180000000	USD
Calculation of Students batch 2026 to 2027 (for 1 year)		
No of students joining MBBS abroad per batch	15,000 every year	
Average expenses per year per student	6,000	USD
Expenses for 15000 students in 1 year	90000000	USD
Total Spent by 2026 batch till 2027	90000000	USD
Total Loss of Foreign Exchange from 2021 up to 2027	1890000000	USD

Foreign universities or institutions are working to take the maximum number of students for maximum earning and they do not worry about what will happen to the students on return to India for licensing in India.

Every country has its rules and regulations governing medical education and licensing for medical practice for their local students. Only the Embassy of India can have access to this information officially, while I, as a common person, cannot.

Students are going in bulk to Kyrgyzstan even after FMGL 2021 in the Absence of clarity on the rules and regulations of medical education there and the students can face problems here in India after the completion of course.

Let us take this responsibility for the country and educate the students through an advisory before joining a medical doctor degree course abroad; I kindly request your assistance in obtaining answers to these questions from the Embassy of India in Bishkek.

It would be great help for all aspiring students if the information could be posted as an advisory on the official website of the Embassy.

Sincerely Yours,

Ravi Kumar Koul
